The Risky Journey

In 2002, Joyce and Thomas were famous astronauts. They were sent to complete mission in Venus. After they had completed their mission, they went back to the Earth from Venus. They were very glad and played with each other, but they forgot to control the spaceship.

Suddenly, the engine was face out of smoke but they did not know. When the smoke began to fill the control room, they were very frightened and stunned. "What's happening?" Joyce screamed.

After five minutes, there were Unidentified fly object above the spaceship unidentified flying object was bigger than the spaceship. Unidentified flying object was very bright. Then, an alien wore a green shirt, his eyes looked like eggs. It was very strange. He opened the gate of spaceship and saw Joyce and Thomas. "Oh no!" they whispered. The alien tried to talk to them, but they didn't know what he said. They are enchanted.

At that very moment, the spaceship broke down. Thomas said, "What can we do?" Joyce told him to follow the alien to enter the Unidentified flying object. "Do you have any other suggestions?" He replied. Joyce had no idea. They were very nervous and scared. Although the alien could not understand their language, the alien could use a magic wand to help them to go back to the earth. It was a good idea.

Finally, they could go back the earth immediately/ they said, "We are very lucky!" and they said thank you to the alien. "How could you help us? You can't understand our language." They smiled sweetly. The alien took out the magic wand to point to it. "He use another method to help us, " said Thomas.
