My trip to the Hong Kong Wetland Park

On the 21st February, I went to the Wetland Park with my classmates because we have to do the English homework and the homework theme is about the Wetland Park. First, we traveled by coach to Wetland Park.

We went to the Wetland Interactive World. We saw many animal specimens. We learnt lots of things in the Wetland Interactive World. It was interested.

Next, we saw the birds in the Bird Hide. There were a lot of birds, for example: Black-faces Spoonbill. Black-faced Spoonbill was my favourite bird because it was precious and beautiful. We used telescope to see these precious birds.

After that, we went to Pui Pui's Home. We saw a crocodile 'Pui Pui'. Crocodile was precious in our world, we should protect crocodile, and I felt Pui Pui was happy and its habitat was big. There was a pool. Pui Pui could swim in the pool. I saw Pui Pui feeling relaxed.

Then, we walked to Mangrove Walk. I felt excited and terrible because the Mangrove Walk was shaking. Next, we went to the Discovery Center. There were many tanks. We saw some fish in the tanks.

Finally, we went to the souvenir shop. There were many products. The products were about Wetland Park animals. In this trip, I felt happy and interested.
