Introduction:

"Turn It Up" is a drama and romance film. The film stars include Rachele Brooke Smith and Kenny Wormald. It takes place in New York City.

Description:

The story is about Kate Parker, who enjoys dancing, wants to perform with the greatest dance school, the American Ballet Academy in New York City. So she says goodbye to her friends and goes to an audition for the dance school. Unfortunately, she fails. But she does not give up and finds a cutting-edge hip-hop club. Then Kate knows a handsome person called Tommy Anderson, who may change Kate's life. Finally, they fall in love. However, they break-up after jealous Kate sees Tommy dance with Suzanne for a gala. At the end of the dance, Suzanne kisses him. Kate feels angry and upset. What will happen next? Guess it yourself.

It is a drama and romance film telling us "Never give up, dream will come true". The viewers can see many touching scenes.

Critique:

My favourite character is Kate Parker, because she is very sturdy and brilliant though she failed in the audition. And she is beautiful too! And the background music is really touching. However, I dislike that the film is too boring. Firstly, romance film isn't my favourite. Secondly, most of the scenes are predictable and unoriginal, it just like I have seen before. Although Kate and Tommy's dancing skills are outstanding, I don't like Ballet either. Therefore, "Turn it up" disappoints me a lot.

Conclusion and Recommendation:

I don't recommend the film to others because it is believable that they will fall asleep. The film has good music but many predictable scenes. I wish I had not seen this film.
