

Animal Ambassador for Ocean Park

The Animal Ambassador is to promote the attractions of Ocean Park. Ocean Park has decided to choose another animal as the Animal Ambassador. It symbolizes Ocean Park. It promotes different activities. A good Animal Ambassador can attract tourists from different places around the world.

I think dolphins should be the new Animal Ambassador. I think dolphins are very clever, intelligent, smart and gentle. They have 5 to 8 years old intelligence. There is the Ocean Theatre in Ocean Park. Dolphins can do many tricks there. They bring laughter to people. Dolphin shows are very popular among Ocean Park. Every time the shows are full house. It is not unusual for dolphins to jump as high as five metres out of the water. There are many reasons why dolphins leap up high- to play, to communicate with other creatures and to find food.

Many people think dolphins are helpful, cheerful, gentle, obedient and lovely, so I think dolphins are suitable to hold the post of Animal Ambassador. Many people like dolphins, so dolphins can bring great income to Ocean Park as well.
