

### **Animal Ambassador for Ocean Park**

The Animal Ambassador is to promote the new attractions of Ocean Park. Ocean Park has decided to choose another animal as the Animal Ambassador. Animal Ambassador symbolizes Ocean Park. Animal Ambassador helps to promote different activities.

There are many animals in Ocean Park, for example, tropical fish, jelly fish, dolphins, seals, sharks, the giant pandas and red pandas. What would you like? I like dolphins best. So I think dolphins should be the new Animal Ambassador. I think dolphins are very clever, intelligent, smart and helpful. They have 5-8 years old intelligence. I usually go to Ocean Theatre. I can see many dolphins' shows. They are very energetic. Usually the staff asked dolphins questions, and the dolphins can answer the questions accurately.

Why do I think dolphins can be Animal Ambassador? It is because I think dolphins are very gentle. It gives people the impression of being nice and close. So I think dolphins are suitable for the post of Animal Ambassador.

Many people like dolphins. So dolphins can bring great money to Ocean Park. A good Animal Ambassador can attract tourists from different places around the world.
