

### **Animal Ambassador for Ocean Park**

Animal ambassador represents the theme park. We can find it as the theme park sign. It can help Ocean Park to promote its image, just like an advertisement and television commercial. We also can find it in Ocean Park and take pictures with it.

I choose dolphin to be the animal ambassador, because Chinese White Dolphin is endangered and protected marine animal. I hope this marine animal can raise people's awareness on environmental protection. Dolphin is nimble. It likes jumping in the sea. Also, it is sociable. It can make friends with people easily with its gentle and lovely character.

People think that dolphins are very smart, obedient and energetic. It can bring people cheers. In Ocean Park, it always appears in Ocean Theatre. It will perform with trainers together. Tourists can have an opportunity to touch it. Dolphin is suitable to hold the post of 'animal ambassador' because it is lovely. Its characters are being helpful and intelligent.

Dolphin can bring a lot of fun to people who visit Ocean Park. It can keep attracting more and more people to go to Ocean Park, especially kids!
