

### **Animal Ambassador for Ocean Park**

An animal ambassador represents Hong Kong Ocean Park and helps promote Ocean Park's latest attractions. It is like an advertisement in order to attract people to come to Ocean Park.

I will choose giant panda to be a new animal ambassador. The giant panda is a protected and endangered animal. Giant panda has black eyes. It is so lovely, cheerful and gentle. Some children will be happy if they see it.

Giant panda is our national treasure, so it is suitable to hold the post of 'animal ambassador'. It can inevitably bring benefits to Ocean Park by attracting more tourists. Business will be greatly increased.

All in all, I think giant panda is suitable to hold the title of 'animal ambassador'.
