

My trip to the Hong Kong Wetland Park

Last Friday, we went to Wetland Park. First, we went to the place of reptiles and fish. But some animals were fat like alligator. It was quite boring because they didn't even move.

We also went to Pui Pui's Home. The crocodile was so big and was swimming around. It was so cool looking at the crocodile and we also took a lot of pictures too. Then, we took a look at birds. So we went to two Bird Hides at riverside and mudflat. We used telescope to look at the birds. They were amazing. There were Black-faced Spoonbill, Eurasian Curlew, common Moorhen and etc. the Eurasian Curlew was a funny looking bird, it has a long thin beak. After seeing a lot of birds, we went to Discovery Centre.

In the centre, there were six fish tanks. In each fish tank, there was an animal such as small crabs, frogs, fish and cooler animals. After that, we went for a Mangrove Walk. There were beautiful plants at the sides of the bridge. And there were so many of them.

Finally, we went to the souvenir shop and bought some drinks. It was so much fun. I loved there, I hope I will go with my family next time and I'm sure they will love that place too.
