

My trip to the Hong Kong Wetland Park

I went to Wetland Park with all form 2 students last Friday. Why I needed to go Wetland Park? It was because we need to collect information for a project. In this trip, we stayed there for around two hours. Although we stayed there for a short while, we visited many places for example, Pui Pui's Home, Discovery Centre and Bird Hide.

First, we went to visit the Wetland Interactive World where we could find many animal samples and display boards. When we went inside, we saw a proud tiger sample. Next to the tiger, we saw many display boards. We collected much information there.

Second, we went to Pui Pui's Home. In there, we saw a crocodile. We called it Pui Pui. It looked very scary, but we still took photos with it. We also collected much information about crocodile there.

Third, we went to Bird Hide at riverside. We saw many kinds of birds, for example, Black-faced Spoonbill, Pied Avocet and Spotted Dove.

In my opinion, Hong Kong Wetland Park is a good place. We have learnt much knowledge about animals. If you have never been to Wetland Park, I suggest you go to take a look.
