

## My trip to the Hong Kong Wetland Park

Last week in the afternoon, we visited the Hong Kong Wetland Park in Tin Shui Wai. I had a quick lunch before I went to the Hong Kong Wetland Park by coach with my classmates.

First, I went to the bird hide. I saw many different birds there, such as the black-faced Spoonbill, Little Egret and Pied Avoset. They were so cute. Their bills are very long. I think that is interesting. It was nice to see them playing with each other. They did different kinds of things, such as sleeping, eating and playing. I enjoyed watching them.

Next, I went to floating boardwalk. The floating boardwalk wobbled. It was very dangerous. My friends were very frightened, but I thought it was funny and exciting. Although the floating boardwalk was fun, I could not see the mudskippers, so I felt very disappointed.

Then, I went to Pui Pui's Home. I saw Pui Pui was sleeping. It was very cute. It was my first time to see a crocodile. I was very excited.

Finally, I went to the Wetland Interactive World to do my homework. I worked very hard on this piece of homework, so I did not go to the souvenir shop.
