Dear Amy,

I know you will go traveling Japan this winter, and it is the first time you go to Japan. So I will tell you how to prepare for the trip, and something about Japan.

Now I tell you how to prepare your trip. First, I think you should find the best travel agency and choose the one you think is the best travel package. Next, you should bring some useful luggage to go Japan. What kind of things is useful? It means when you bring it to go traveling, you will use it. What luggage should you take? Let me give you some tips. When you go to Japan, it is winter at that time. So, I prefer you to bring some clothes that can make you warm such as jumper, and jacket. And it is important for you to bring your passport and plane ticket.

Now, let me tell you something about Japan and some tips for your travel. First, I am going to tell you which cities you can go. Tokyo is the best. I know you like Japanese fashion. So, you can visit Tokyo. There are many trendy clothes shops. If you like brandy products, you can go to the shopping malls to buy them, because there are many shopping malls in Tokyo which sell trendy things. Next, if you want to visit some castles or historical buildings, you can go to Osaka. There is a famous castle that many TV travel programs also mentioned it. Then, if you want to see beautiful views or go to some quiet and relaxing places, Hokkaido is the best choice. Hokkaido is the northern city in Japan. In this place, you will see many flowers, sea view and farms. If you want to try some interesting things, you can go to farm to milk a cow. It is interesting.

Finally, I prefer you to buy a book about travel in Japan. It is because it will show you many places and also has a map for you.

Love,
Chris
