Dear Principal,

Creative Writing Class for Secondary 4 students

As the chairperson of school English Club, I am writing to you today about ways of helping our students improve their English. As you are probably aware, our students need help with their English, so we would like to organize a creative writing class for Secondary 4 students.

This Creative Writing class aims to improve students' English by teaching them how to write a decent story using different writing skills.

I believe the creative writing class will bring many benefits to students. In this writing class, students will read different kinds of story books, then they are encouraged to think outside the box and know how to create the setting of writing like when, where, who, climax and ending. They can learn more vocabulary, writing skills and grammar. They will be interested in English like writing after this writing class. Also, they can write a more creative story and create a personal style.

We have designed some activities and exercises to help students write short stories. For example, we have an activity that students write a story, then they put on a drama based on their story. I think students will be interested in it. They can perform their story and drama is very fun. It can make people confident in using the language.

This class will be held on Friday after school. I think it can't be held on weekends because students have their own schedule and hobbies on weekend. It will be held in hall because the hall is huge enough. We will employ a NET.

As long as the public examination results represent a student's success or failure, the public examination will continue to be a stressful challenge to students in Hong Kong.

Yours faithfully,

A.Wong
