

Dear Editor,

We can always see that there are many abandoned animals in the streets. I want to take this chance to raise the attention of the public on this problem and ask for animal adoption.

There are a lot of reasons of the abandoned animals. First, the owners don't think twice for the basic requirement before they buy the pet home. Next, the owners do not take the pet to carry out neutering so the pet breeds so many babies that the owners cannot afford the burden. Besides, taking the pet to carry out neutering, the owners also haven't taken the pets for vaccination. Therefore, the pet gets sick easily. When the pet is sick, the owners abandon them. Also, the owners just follow the trend to buy animals. They abandon the pet when they lose interest very soon.

Adopt animals from The Society for the Prevention of Cruelty to Animals (SPCA) can lower the burden of SPCA. It's because SPCA has kept too many animals. If the abandoned animals in SPCA are kept for two weeks, they will be taken to euthanasia. Also, the price of adopting animals from SPCA is cheaper than buying animals from pet shops, so there are many advantages of adopting animals.

As we see, the problem of abandoned animals is very serious. The number of abandoned animals is increasing rapidly, so it is a good idea to adopt animal to protect the abandoned life.

Yours faithfully,

*Alan*
