

Choi Ming Shopping Centre Vs Metro City

There are many shopping centres in Tseung Kwan O. Different people like different kinds of shopping centres. We mainly have small shopping centres like Choi Ming in Tiu Keng Leng. There are also bigger shopping centres like Metro City.

Metro City has more choices of restaurant than Choi Ming where most of the restaurants are serving Chinese dishes. The environment in Choi Ming restaurant is dirtier than those in Metro City. However, the price in Choi Ming restaurant is not as expensive as Metro City's.

The choice of shops in Metro City is more convenient because there are many chain-stores like H&M, Citistore and Wellcome. In Choi Ming, there are many small shops which are cheaper than those chain-store. Sometimes, chain-shop will have some special offers to attract people to buy their products.

The customer service is better in Metro City. Choi Ming have less services provided to the customer, for example lifts for disabled. Metro City has more different services. Metro City can also provide baby cars, battery charging, and computer for checking emails and guide of Metro City. It also provides wifi, free parking space and lucky draw.

In my opinion, I like Metro City more because it can provide more shopping choices and more customer services. However, I sometimes visit Choi Ming because the things are cheaper. Sometimes we can even have discount. Metro City is also preferred because it is much more convenient in transportation.
