

Dear Editor,

I am writing to express my opinion on the issue of animal adoption. Nowadays, many animals get hurt or die because many people abandon their pets. If we adopt the animals, we can reduce the number of abandoned animals.

To begin with, I would like to talk about why people abandon their pets. Many people just think the pets are cute but they do not want to take care of them or they think the animal is very noisy so they abandon the animals. The reasons are really unacceptable because if you buy the pets, you must take care of them forever. They have lives but not toys. We can give the abandoned animals a warm home.

Now, I would like to talk about why we should adopt animals. When animals are abandoned, they are kept in SPCA. However, SPCA has kept too many animals. If no one adopts them, they will be destroyed. So if you want to keep a pet, you should adopt but not buy a new one. If you want to adopt animals, you can go to SPCA for more information. Also, if you really want to adopt or buy animals, you must think twice to make sure you can take care of them forever and will never abandon them.

Yours faithfully,

*Ashley*
