

Dear Ella,

How are you? I got a memorable trip two years ago. This is my most unforgettable trip I had ever got. In this trip, I went to South Korea. I went there with my mum only, but I met so many new friends during the trip.

I love South Korea very much. It is because Korean's culture is special for me. I like their old clothes and K-pop. I went to Dong Tai Mun and Lotte World during the trip. People there are friendly and kind. K-pop singers are so pretty and handsome. I had shopping for three days because the clothes and accessories are so cute and attractive, I love them!

However, I got some problems there. Although I knew some simple words of Korean language, we still had problems with it. Luckily, we had a tour guide. He helped us a lot. And the second problem was the weather. I went there during Christmas holiday. It was very cold. We need to bring so many clothes so my luggage was heavy.

I still remember the first morning in Korea. It was the most unforgettable day for me. I woke up so early that day. When I went out from the hotel with my mum, we saw the sun rise. It was so beautiful and stunning, so it is my favourite moment. I hope we can go there together.

Cheers,
Giselle
